

To whom it may concern,

This letter is to recommend John Getha and his professional work as a consultant. We had the pleasure of meeting with John to explain our current situation with the US market and the challenges we were facing.

John's analysis of our business and recommendations on our approach to the US market provided GSE some great actionable items. His direct approach to communication is appreciated by all and we always come away with valuable insights on how to improve

John has great knowledge and insights of the restaurant industry that helped us get a better understanding of our focus and strategy to accomplish great results for our potential customers.
